“Bull Walk” ~
A Fair Oaks Ranch Tradition

What is a Bull Walk?

The spirit of Bull Walk is an exhibition of our program and a venue for positive dialog between cattlemen. Bull walk features a “walk-about” highlighting Fair Oaks Ranch’s Angus Grass-fed and Outcross Genetics program. It is an annual event for cattlemen to visit the ranch, see the stock, and make new friends. Come enjoy a no stress day. Leave your wallets at home, it is not a sale day.

Bull Walk is an opportunity for exchanging ideas and asking questions regarding our cattle program. It is a time for neighbors to share information about their own programs creating a good informal discussion for all.

We begin with an introduction to Fair Oaks Ranch goals and news of what we have learned over the past year. We will exhibit the 2010 bulls and the terrific cow-line that produced them with the next generation by their sides. After a walk down the fields, we head to the ranch house headquarters for refreshments and a delicious Bar-B-Q.

You will find that as the walk goes on, so do the conversations. Walking stimulates chatter, gives room for humor and the group has a great time. Fair Oaks Ranch Bull Walk is one of the most unique cattle forums in the USA.

We encourage questions regarding the Grass-Fed industry and you will receive the tools to what we consider a terrific business model. At the end of the day, we are confident that everyone will appreciate our deep-bodied cattle and the benefits our program will add to your bottom line.

We look forward to seeing you late April. Call for further information or visit us on the web. See you then.
